Chrome DEV-Tool, VS Code, Git, GitHub, Heroku, Netlify, C-Panel

MY PROJECTS

❖ Quiz App (DRF)

Live link || [GitHub \(Client side\)](#) || [GitHub \(Server side\)](#)

This is a quiz app where a user can play quiz easily.

Features:

- It's a quiz app with a wonderful authentication system with email and token verification.
- I've implemented forget password system too.
- An authenticating user can play quiz.
- It also has full CRUD operations from admin panel. Such as user can make quiz card, add questions, edit and delete question and also can delete the hole quiz card.
- I also used lottify animation to give an attractive looks.

Technology Used: JavaScript, ReactJS, Django Rest Fretwork, PostgreSQL database.

❖ Job Portal (MVT)

Live link || [GitHub \(Client side and Server\)](#)

Well, this website is all about job seeker and job circular.

Features:

- This page was created by MVT pattern.
- It has an authentication system.
- Authenticated user can post and delete job circular and view the candidates.
- A job seeker can apply for the job.

Technology Used: HTML, CSS, Tailwind CSS, Python, MySQL database.

❖ Online Shop (DRF)

Live link || GitHub (Client side) || [GitHub \(Server side\)](#)

Well, this is an e-commerce online shop where a user can post their product for sell.

Features:

- It has an authentication system.
- Authenticated user can post and delete their product
- Unauthenticated user can view all the product but they can view product details.

Technology Used: ReactJS, React Router, Django Rest Fretwork, MySQL database

EDUCATION

Bachelor of Arts
National University
